Eccles and Ribley's Deal Assures Construction of Line.

The Perzian's jewels were an unending source of gossip. A jewel merchant who was present at the Chat's reception Tuesday estimated that if the girl's inheritance was then worth \$100,000, the monarch was then worth \$1,000,000.

TUCKING THE PLANETS.

deputy on Monday. It is customary
for the Maharajah before starting
important journeys to consult the astrologist as to whether the plans

These gentlemen also own an Oregon road, the Summer Valley, which has a bright future before it, and it may be that it is destined to be a part of the new project.

THE Mahārajah has issued orders that the State of Utah nearest their frontier, and if they are in the Coast bay protect the public may depend upon it that they will reach the road through or know the manner why.

W. H. Hollings is a former So. Lake merchant, who has lived in Tacoma for some time. He has been a railroad contractor for some years past.

Meenars, Eccles and Nibley Say They Know Nothing of Deal.

which was carried out by the priests of the order with great ceremony. Among the Maharajah's baggage was a cycle, a horse and a small tricycle.

HOOSIER BANK FAILS.
Proprietor and His Wife Flee Country.

Washington, Ind., Aug. 23.—The
own bank, a private institution at
Horn, twenty miles north, has fail-
ed and the proprietor, Pleasant Durbin,
and his wife, have fled. Durbin

neither himself nor Mr. Brown were in any way connected with the proposition. He said he had heard of the project, and that Mr. Remington had talked to him about it, but up to the time of his departure from the city the amount of \$5000 or \$10,000 are believed to have been lost. The town is in a state of great excitement.

LYNN, Mass., Aug. 21.—An electrical company at Lynn is building a train

which the engineers estimate will make ninety to 100 miles an hour. It is added that the track for the train in Illinois is almost completed, that the line is about 100 miles long and is comparable for

A total of three cars has been built for the new grade. The train will be

equipped with three engines, each with 1,000-horsepower, instead of the high speed increasing the danger. It is claimed that the train will be safer and run less risk of leaving the rails than an ordinary freight car. The track bed

NO electronics means the train is practically electrically welded to the track and cannot leave it while the power is on. The location of the track is not given.
